

SCHEME FOR THE RECOVERY OF BUILDING REGULATION CHARGES AND ASSOCIATED MATTERS

FOR

WOKING BOROUGH COUNCIL

TO BE READ IN CONJUNCTION WITH
THE BUILDING (LOCAL AUTHORITY CHARGES) REGULATIONS 2010

Date this Scheme comes into effect: 1 April 2024

SCHEME FOR THE RECOVERY OF BUILDING REGULATION CHARGES

Definitions

The following definitions apply to this Charging Scheme and should be read in conjunction with the other clauses and tables which constitute the Charging Scheme:

‘building’

means any permanent or temporary building but not any other kind of structure or erection, and a reference to a building includes a reference to part of a building.

‘building notice’

means a notice given in accordance with regulations 12(2)(A)(a) and 13 of the Building Regulations 2010 (as amended).

‘building work’ means:

- (a) the erection or extension of a building.
- (b) the provision or extension of a controlled service or fitting in or in connection with a building.
- (c) the material alteration of a building, or a controlled service or fitting;
- (d) work required by building regulation 6 (requirements relating to material change of use);
- (e) the insertion of insulating material into the cavity wall of a building.
- (f) work involving the underpinning of a building.
- (g) work required by building regulation 4A (requirements relating to thermal elements);
- (h) work required by building regulation 4B (requirements relating to a change of energy status);
- (i) work required by building regulation 17D (consequential improvements to energy performance).

‘chargeable function’ means a function relating to the following –

- (a) the passing or rejection of plans of proposed building work which has been deposited with the Council in accordance with section 16 of the Building Act 1984 (as amended)
- (b) the inspection of building work for which plans have been deposited with the Council in accordance with the Building Regulations 2010 (as amended) and with section 16 of the Building Act 1984 (as amended)
- (c) the consideration of a building notice which has been given to the Council in accordance with the Building Regulations 2010 (as amended)
- (d) the consideration of building work reverting to the Council under the Building (Approved Inspectors etc.) Regulations 2000 (as amended)
- (e) consideration of a regularisation application submitted to the Council under regulation 18 of the Building Regulations 2010 (as amended)

‘cost’

does not include any professional fees paid to an architect, quantity surveyor or any other person.

‘dwelling’

includes a dwelling-house and a flat.

‘dwelling-house’

does not include a flat or a building containing a flat.

‘flat’

means a separate and self-contained premises constructed or adapted for use for residential purposes and forming part of a building from some other part of which it is divided horizontally.

‘floor area of a building or extension’

is the total floor area of all the storeys which comprise that building. It is calculated by reference to the finished internal faces of the walls enclosing the area, or, if at any point there is no enclosing wall, by reference to the outermost edge of the floor.

‘relevant person’ means:

- (a) in relation to a plan charge, inspection charge, reversion charge or building notice charge, the person who carries out the building work or on whose behalf the building work is carried out;
- (b) in relation to a regularisation charge, the owner of the building; and
- (c) in relation to chargeable advice, any person requesting advice for which a charge may be made pursuant to the definition of ‘chargeable advice’

Principles of this Scheme

The set charges or method of establishing the charge have been established in this scheme for the functions prescribed in the Building (Local Authority Charges) Regulations 2010 (referred to as the chargeable functions), namely:

A plan charge, payable when plans of the building work are deposited with the Local Authority.

An inspection charge, payable on demand after the Authority carry out the first inspection in respect of which the charge is payable.

A building notice charge, payable when the building notice is given to the Authority.

A reversion charge, payable for building work in relation to a building:-

1. Which has been substantially completed before plans are first deposited with the Authority in accordance with Regulation 20(2)(a)(i) of the Approved Inspectors Regulations, or
2. In respect of which plans for further building work have been deposited with the Authority in accordance with the Regulation 20(3) of the Approved Inspectors Regulations, on the first occasion on which those plans are or have been deposited.

A regularisation charge, payable at the time of the application to the Authority in accordance with Regulation 18 of the Building Regulations.

Chargeable advice, LAs can make a charge for giving advice in anticipation of the future exercise of their chargeable functions (i.e. before an application or notice is received for a particular case), which is payable after the first hour of advice, on demand after the Authority has given notice required by Regulation 7(7) of the Building (Local Authority) Charges Regulations 2010 (i.e. the charge has been confirmed in writing following an individual determination). This charge can be discounted from a subsequent application or notice received for the work in question.

The above charges are payable by the relevant person (see page 11 for definition).

Any charge which is payable to the Authority may, in a particular case, and with the agreement of the Authority, be paid by instalments of such amounts payable on such dates as may be specified by the Authority. If the applicant and an Authority are agreeable, an inspection charge can be fully or partly paid up front with the plans charge.

The charge for providing a chargeable function or chargeable advice is based on the principle of achieving full cost recovery. The charges will be calculated by using the Council officers' average hourly rate stated in the charging scheme, multiplied by the time taken to carry out the functions/advice, taking the following factors into account, as applicable, in estimating the time required by officers to carry out the function/advice:

1. The existing use of a building, or the proposed use of the building after completion of the building work;
2. The different kinds of building work described in regulation 3(1)(a) to (i) of the Building Regulations;
3. The floor area of the building or extension;
4. The nature of the design of the building work and whether innovative or high risk construction techniques are to be used;
5. The estimated duration of the building work and the anticipated number of inspections to be carried out;
6. The estimated cost of the building work;
7. Whether a person who intends to carry out part of the building work is a person mentioned in regulation 12(5) or 20B(4) of the Building Regulations (i.e. related to competent person/self-certification schemes);
8. Whether in respect of the building work a notification will be made in accordance with regulation 20A(4) of the Building Regulations (i.e. where design details approved by Robust Details Ltd have been used);
9. Whether an application or building notice is in respect of two or more buildings or building works all of which are substantially the same as each other;
10. Whether an application or building notice is in respect of building work, which is substantially the same as building work in respect of which plans have previously been deposited or building works inspected by the same Local Authority;
11. Whether chargeable advice has been given, which is likely to result in less time being taken by a local authority to perform that function;
12. Whether it is necessary to engage and incur the costs of a consultant to provide specialist advice in relation to a particular aspect of the building work.

Principles of the scheme in respect of the erection of domestic buildings, garages, carports and extensions

Where the charge relates to an erection of a dwelling the charge includes for the provision of a detached or attached domestic garage or carport providing it is constructed at the same time as the dwelling.

Where any building work comprises or includes the erection of more than one extension to a building, the total floor areas of all such extensions shall be aggregated to determine the relevant charge payable, providing that the building work for all aggregated extensions is carried out at the same time.

Exemption from charges

The Authority has not fixed by means of its scheme, nor intends to recover a charge in relation to an existing dwelling that is, or is to be, occupied by a disabled person as a permanent residence; and where the whole of the building work in question is solely-

- (a) for the purpose of providing means of access for the disabled person by way of entrance or exit to or from the dwelling or any part of it, or
- (b) for the purpose of providing accommodation or facilities designed to secure the greater health, safety, welfare or convenience of the disabled person.

The Council has not fixed by means of its scheme, nor intends to recover a charge for the purpose of providing accommodation or facilities designed to secure the greater health, safety, welfare or convenience of a disabled person in relation to an existing dwelling, which is, or is to be, occupied by that disabled person as a permanent residence where such work consists of-

- (a) the adaptation or extension of existing accommodation or an existing facility or the provision of alternative accommodation or an alternative facility where the existing accommodation or facility could not be used by the disabled person or could be used by the disabled person only with assistance; or
- (b) the provision of extension of a room which is or will be used solely-
 - (i) for the carrying out for the benefit of the disabled person of medical treatment which cannot reasonably be carried out in any other room in the dwelling, or
 - (ii) for the storage of medical equipment for the use of the disabled person, or
 - (iii) to provide sleeping accommodation for a carer where the disabled person requires 24-hour care.

The Council has not fixed by means of its scheme, nor intends to recover a charge in relation to an existing building to which members of the public are admitted (whether on payment or otherwise); and where the whole of the building work in question is solely:

- (a) for the purpose of providing means of access for disabled persons by way of entrance or exit to or from the building or any part of it; or
- (b) for the provision of facilities designed to secure the greater health, safety, welfare or disabled persons.

Note: ‘disabled person’ means a person who is within any of the descriptions of persons to whom Section 29(1) of the National Assistance Act 1948, as extended by virtue of Section 8(2) of the Mental Health Act 1959, applied but disregarding the amendments made by paragraph 11 of Schedule 13 to the Children Act 1989. The words in section 8(2) of the Mental Health Act 1959 which extend the meaning of disabled person in section 29(1) of the National Assistance Act 1948, are prospectively repealed by the National Health Service and Community Care Act 1990, section 66(2), Schedule 10, as from a day to be appointed

Information required to determine charges

If the Authority requires additional information to enable it to determine the correct charge the authority can request the information under the provisions of Regulation 9 of The Building (Local Authority Charges) Regulation 2010.

The standard information required for all applications is detailed on the Authority’s Building Regulation application forms. This includes the existing and proposed use of the building and a description of the building work

Additional information may be required in relation to –

- The floor area of the building or extension
- The estimated duration of the building work and the anticipated number of inspections to be carried out.
- The use of competent persons or Robust Details Ltd.
- Any accreditations held by the builder or other member of the design team.
- The nature of the design of the building work and whether innovative or high-risk construction is to be used.
- The estimated cost of the building work. If this is used as one of the factors in establishing a charge the ‘estimate’ is required to be such reasonable amount as would be charged by a person in business to carry out such building work (excluding the amount of any value added tax chargeable).

Establishing the Charge

The Authority has established standard charges using the principles contained within The Building (Local Authority Charges) Regulation 2010. Standard charges are detailed in the following tables. In the tables below any reference to number of storeys includes each basement level as one-storey and floor areas are cumulative.

If the building work that you are undertaking is not listed as a standard charge it will be individually determined in accordance with the principles and relevant factors contained within The Building (Local Authority Charges) Regulation 2010. If the authority considers it necessary to engage and incur the costs of a consultant to provide specialist advice or services in relation to a particular aspect of building work, those costs shall also be

included in setting the charge.

When the charge is individually determined the authority shall calculate the charge in the same way a standard charge was set by using the average hourly rate of officers' time, multiplied by the estimated time taken to carry out their building regulation functions in relation to that particular piece of building work and taking into account the applicable factors listed in regulation 7(5) of the charges regulations.

Individually determined charges will be confirmed in writing specifying the amount of the charge and the factors that have been taken into account in determining the charge.

The building regulation charges for the following types of building work will be individually determined and the authority will state which factors in regulation 7(5) of the charges regulations it has taken into account in establishing a standard or individually determined charge.

- A reversion charge.
- The building work is in relation to more than one building.
- The works consist of the erection of 5 or more dwellings.
- The works consist of the erection of a dwelling where the floor area exceeds 300m².
- The works consist of a single storey domestic extension where the floor area exceeds 100m².
- The works consist of a two storey domestic extension where the floor area exceeds 200m².
- The work consists of a domestic garage or car port where the floor area exceeds 100m².
- The works consist of a loft conversion where the floor area exceeds 40m².
- The works consist of the alteration or extension to a basement over 100m².
- The works consist of alterations to a domestic property where the estimated cost exceeds £75,000.
- The works consist of installing in excess of 20 window or door units in a domestic property.
- The work consists of a non-domestic extension or new build where the floor area exceeds 200m².
- The works consist of installing in excess of 50 window or door units in a commercial property.
- The works consist of the renovation of the thermal elements exceeding an estimated cost of £250,000.
- The works consist of alterations to any non-domestic building where the estimated costs exceed £150,000.
- The works consist of shop or office fit outs which exceed 1000m² in floor area
- The works consist of underpinning of a building.
- Any works not expressly described in Tables A to E of the scheme
- Where more than one standard charge applies to the building work and, with the agreement of the relevant person, the authority will establish the charge by individually determining the charge,

Other matters relating to calculation of charges

In calculating these charges, refunds or supplementary charges, an officer hourly rate of £83.04 (exclusive of VAT) has been used for the financial year 2024/25.

- Any charge payable to the Authority shall be paid with an amount equal to any value added tax payable in respect of that charge.
- Charges are not payable for the first hour when calculating an advice charge
- The Authority accepts payment by instalment in respect of all building work where the total charge exceeds £5,000. The authority on request will specify the amounts payable and dates on which instalments are to be paid

Reductions

Reduced charges are shown in the tables of standard charges and reduced charges will also be made in relation to individually assessed charges when work, or the relevant part of the work, has been, or intends to be carried out by a person mentioned in regulation 12(5) or 20B(4) of the Principal Regulations in respect of that part of the work, (*i.e. competent person/self-certification schemes or other defined non-notifiable work*).

Any reduced charges that will be made in relation to individually assessed charges when a notification is made in accordance with regulation 20A(4) of the Principal Regulations, (*i.e. where, for the purpose of achieving compliance with Requirement E1 of the Principal Regulations, design details approved by Robust Details Limited have been used*) are shown in the tables of standard charges and will also be considered in calculating individually determined charges.

The Authority shall make a reduction in a standard or individually determined charge when chargeable advice has been given before receipt of an application or notice for proposed building work, which is likely to result in less time being taken by the local authority to perform the chargeable function for that work.

When it is intended to carry out additional building work on a dwelling at the same time that any of the work to which Table C relates, the charge for this additional work shall be reduced by up to 25%. Alternatively, the charge may be individually determined, with the agreement of the applicant.

Where in accordance with Regulation 7(5)(i) of the charges regulations one application or building notice is in respect of two or more buildings or building works all of which are substantially the same as each other (and the works are carried out as a single project) a 25% reduction in the standard charge will be made.

Where in accordance with Regulation 7(5)(j) of the charges regulations an application or building notice is in respect of building work which is substantially the same as building work in respect of which plans have previously been deposited or building works inspected by the same local authority, a 50% reduction in the plan charge will be made.

Refunds and Supplementary Charges

If the basis on which the charge has been set or determined changes, the LA will refund or request a supplementary charge and provide a written statement setting out the basis of the refund/supplementary charge, and state how this has been calculated. In the calculation of refunds/supplementary charges no account shall be taken of the first hour of an officer's time

Non-Payment of a Charge

Your attention is drawn to Regulation 8(2) of the Building (Local Authority Charges) Regulations 2010, which explains that plans are not treated as being deposited for the purposes of Section 16 of the Building Act or building notices given unless the Council has received the correct charge. In other words, relevant timescales do not start until the agreed payment has been made. The debt recovery team of the authority will also pursue any non-payment of a charge

Complaints about Charges

If you have a complaint about the level of charges you should initially raise your concern with the relevant officer. The Council has a comprehensive complaint handling process. If your complaint is not satisfactorily responded to by the officer concerned, details of how to resolve your complaint is available on request and can be viewed on the Council's web site: www.woking.gov.uk

Building Control Charges Scheme April 2024

1. Building Regulation Approval

1.1 Building Regulations Application Before carrying out building work to which the Building Regulations apply, you or your agent must either deposit a Full Plans application or a Building Notice, together with the appropriate charge.

1.2 The charge payable is dependent upon the type of work to be carried out and can be calculated by reference to the following notes and charge tables. Payments made by cheque should be made payable to Woking Borough Council or via the website. If you have any difficulties, or the works being carried out are not detailed within the tables, please contact the Building Control service who will provide advice and/or an individually determined charge for your proposals.

1.3 The proposed works may also require Planning Permission, guidance for which can be obtained separately from the Council's Planning Services on 01483 743841.

2. Charges are payable as follows:

2.1 Full Plans Application - Should you submit a Full Plans application, you will pay a Plan Charge at the time of submission of the application to cover assessment and decisions of deposited plans, with an Inspection Charge payable at the commencement of works/after we have made our first inspection. If applicable, you will be sent an invoice for this charge.

2.2 Building Notice Application - Should you submit a Building Notice; the appropriate charge is payable at the time of submission. The fee payable covers all necessary plan examination and site inspections, in relation to the work described in the notice. This charge is equivalent to the sum of the relevant Plan Charge and Inspection Charge paid for Full Plan applications.

2.3 Regularisation- Application/Unauthorised works - As the owner of unauthorised building work, should you apply for a Regularisation Certificate in respect of unauthorised building work, which was commenced on or after 11 November 1985; a regularisation charge is applicable. This charge is payable at the time of submission of the application, and covers the cost of assessing your application, and all site inspections. Applications should include one copy of all available details.

2.4 VAT – Is chargeable to all Building Regulation Applications at the current rate applicable at the time of submitting the application, with the exception of Regularisation applications.

2.5 For further information on making an application please see www.woking.gov.uk/planning/building. Please note that the withdrawal or substantial amendment to an existing application may be subject to an administration charge.

3. Charges Tables

3.1 Table A Charges for the erection of dwelling houses and flats – details the charges payable for new dwelling houses and flats, where the total internal floor area of each dwelling, excluding any garage or carport, does not exceed 300m². The building must also have not more than three storeys, including basement storeys. Dwellings exceeding 300m², or sites exceeding 5 dwellings, please contact the Woking Building Control Service who will provide an Individually Determined Charge.

3.2 Table B Charges for Domestic Extensions– details the charges payable where works comprise of one or more domestic extensions. Floor area is the total internal floor areas of all storeys added together. Two or more extension floor areas may be added together to determine the relevant charge, providing the works are carried out simultaneously. The Council reserve the right to make additional charges should this subsequently not be the case.

3.3 Table C Domestic Alterations– details the charges payable where works consist of domestic alterations. Estimated cost means, an estimate of all reasonable costs including both materials and labour that would be charged by a person in business, to carry out the work, excluding VAT. Professional fees paid to an architect, engineer or surveyor etc. and land acquisition costs, are to be excluded from the estimated costs.

3.4 Electrical works which are not carried out by a Competent Person registered under the Part P Scheme, attract an additional charges please also note clause 4.1 below.

3.4 Reductions are discounts provided where more than one category of works is carried out simultaneously, the relevant reduction will relate to the cheaper category of work of up to 25%.

3.5 Individually Determined Charges –Where your proposed building work does not fall within the Tables A to C please contact, the Building Control team who will be pleased to provide an individual determined quotation for the building control charge for your project. Please contact us on 01483 743841 or e-mail at buildingcontrol@Woking.gov.uk with details of your proposal.

4. Supplementary Additional Charges/Reductions

4.1 Competent Designer and Contractor

The Standard Charges have been set on the basis that the design and building work is undertaken by a person or company that is experienced and competent to carry out the work. If not, the work may incur supplementary additional

charges.

Additionally contractors who are repeating designs and processes, (specialising in a particular field), do require less supervision or re-inspection, to reflect this 25% a reduction in the standard charge will be made. The criteria we use in applying this reduction is evidence of 5 consecutive projects meeting the inspection frame work without need for re-inspection

4.2 Innovative or High Risk Construction Techniques

The charges have also been set on the basis that the building work does not consist of, or include, innovative or high risk construction techniques. If so, the work may incur supplementary additional charges.

4.3 Construction Time Period

If the duration of the building work from commencement to completion exceeds 12 months, the Council reserves the right to make supplementary additional charges.

4.4 Chargeable Advice Discount

If chargeable advice has been given in respect of any of the work detailed in these tables and this is likely to result in less time being taken by the authority, a reduction to the standard charge will be made.

5. Exemptions

5.1 Where plans have been either Conditionally Approved or Rejected, no further charge is payable on resubmission for substantially the same work.

5.2 Works to provide access and/or facilities for disabled people to existing dwellings are exempt from charges. In these Regulations disabled person is defined as a person to whom Section 29(1) of the National Assistance Act 1948 applies.

6. Other

6.1 The Regularisation Charge is equivalent to the sum of the relevant net plan and inspection charges paid for full plan applications plus 50%. N.B. VAT is not payable for Regularisation applications.

Thermal element means a wall, floor or roof which separates a heated part of the building from the external environment (including the ground) or from an unheated part of the building. 'Renovation' in relation to a thermal element means the provision of a new layer in the thermal element or the replacement of an existing layer, but excludes decorative finishes

Charges inclusive of VAT at 20%.
